What the heck are we doing?

This is a timed, XC style fat bike race held on amazing XC ski trails at our local Nordic center with a staff of groomers making sure we have an amazing, groomed surface of that all important white stuff to ride on. The first time I rode a rental fat bike down double trouble (a great groomed trail there), I

Venue:

**Whitegrass Ski Touring Center** is opening its doors to us silly people that choose fat bikes over skis. With over thirty years in business, WG knows snow. It's got a relaxed, eclectic vibe and everything revolves around the cozy, packed ski lodge. WG is not open to fat biking the rest of the year. Btw- we all ski the trees too.

Course:

The course will be on a mix of rolling lower trails and rugged mountain trails. 95% of the course will be groomed, and non groomed course will be gravity aided. Course is not available to preride.

Proceeds:

Any proceeds and funds raised over the weekend will go to funding the construction of a new, 2.4 mile beginner trail in the Thomas City Park, a partnership between **New Historic Thomas** and the City of Thomas.

Schedule:

Race starts @ 9:30 AM
